

IWAS Wheelchair Fencing Material Rules Amendments – March 2019

Chapter Two	Current Rule	Corrected Amendment	
m25	<p>m.25 9. The Fencing Wheelchair (see Figure 13.1) 1. The wheelchair is part of fencing equipment and must be 'weapon controlled'. The back of the wheelchair, the cushion, the frame, the armrest and the wheels will be tagged with a matching numbered marker by the controller. The material of the back of the wheelchair and that of the seating (but not that of the cushion) can be rigid or flexible.</p>	<p>m.25 9. The Fencing Wheelchair (see Figure 13.1) 1. The wheelchair is part of fencing equipment and must be 'weapon controlled'. The back of the wheelchair, the cushion, the frame, the armrest and the wheels will be tagged with a matching numbered marker by the controller. The material of the seating of the wheelchair (but not that of the cushion) can be rigid or flexible. The material of the back, whilst it can be padded, must be rigid.</p>
